MISHRA

The logo consists of the letters 'AIM' in a white, stylized, serif font. The letters are bold and have a slightly distressed or hand-drawn appearance. They are centered within a solid orange oval. The entire logo is positioned in the upper half of a white rectangular area, which is pinned to a blue textured background with two silver pushpins at the top corners.

AIM

Our Aim is to design a managing system for smooth running of an Organization. In which the information and the personal detail of every employee will be fed, and it can be accessed by the managing unit of the organization and also by the particular employee with its login credentials anytime , anywhere.

PROJECT EXPLANATION

It works in a hierarchical manner in an organization.

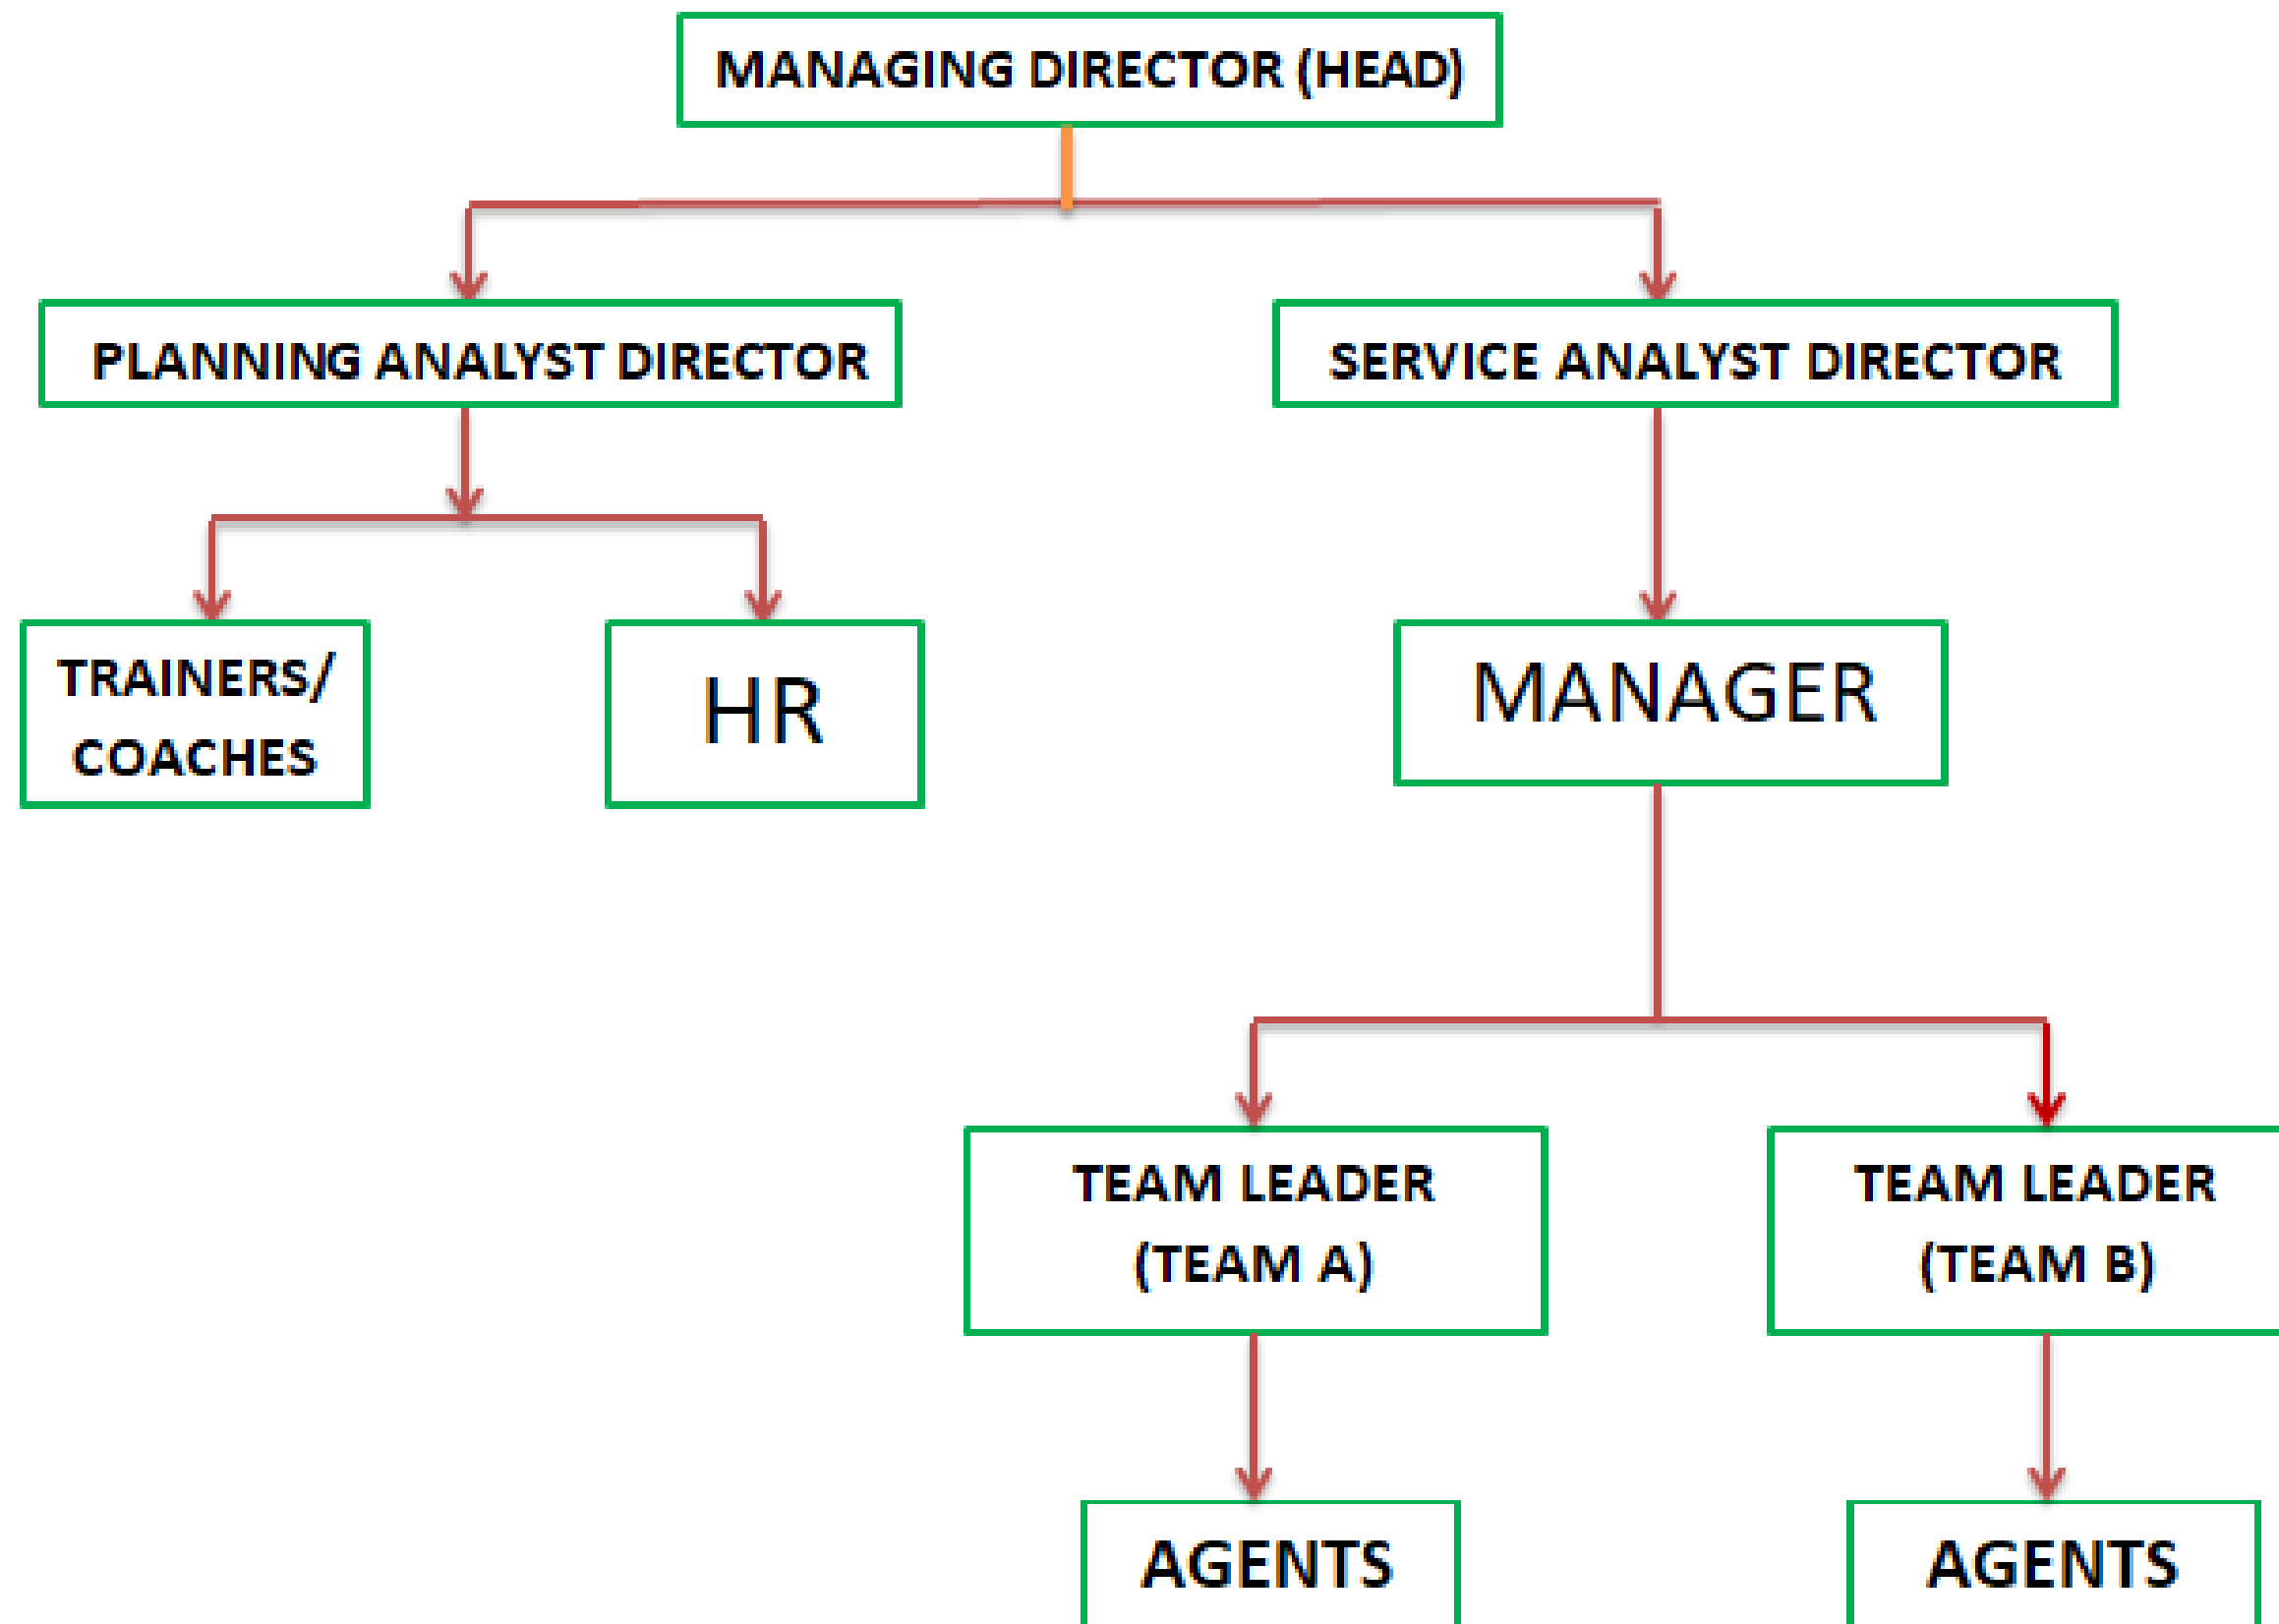

For example –

As we can take a small organization like – Business process Outsourcing (BPO) system in that the Head of the organization can access, change and manage the data of every person of his/her organization but the planning and service analyst person can only access his/her data and manage or change the data of their lower-level employees. Like this way, our whole program will run in Hierarchy.

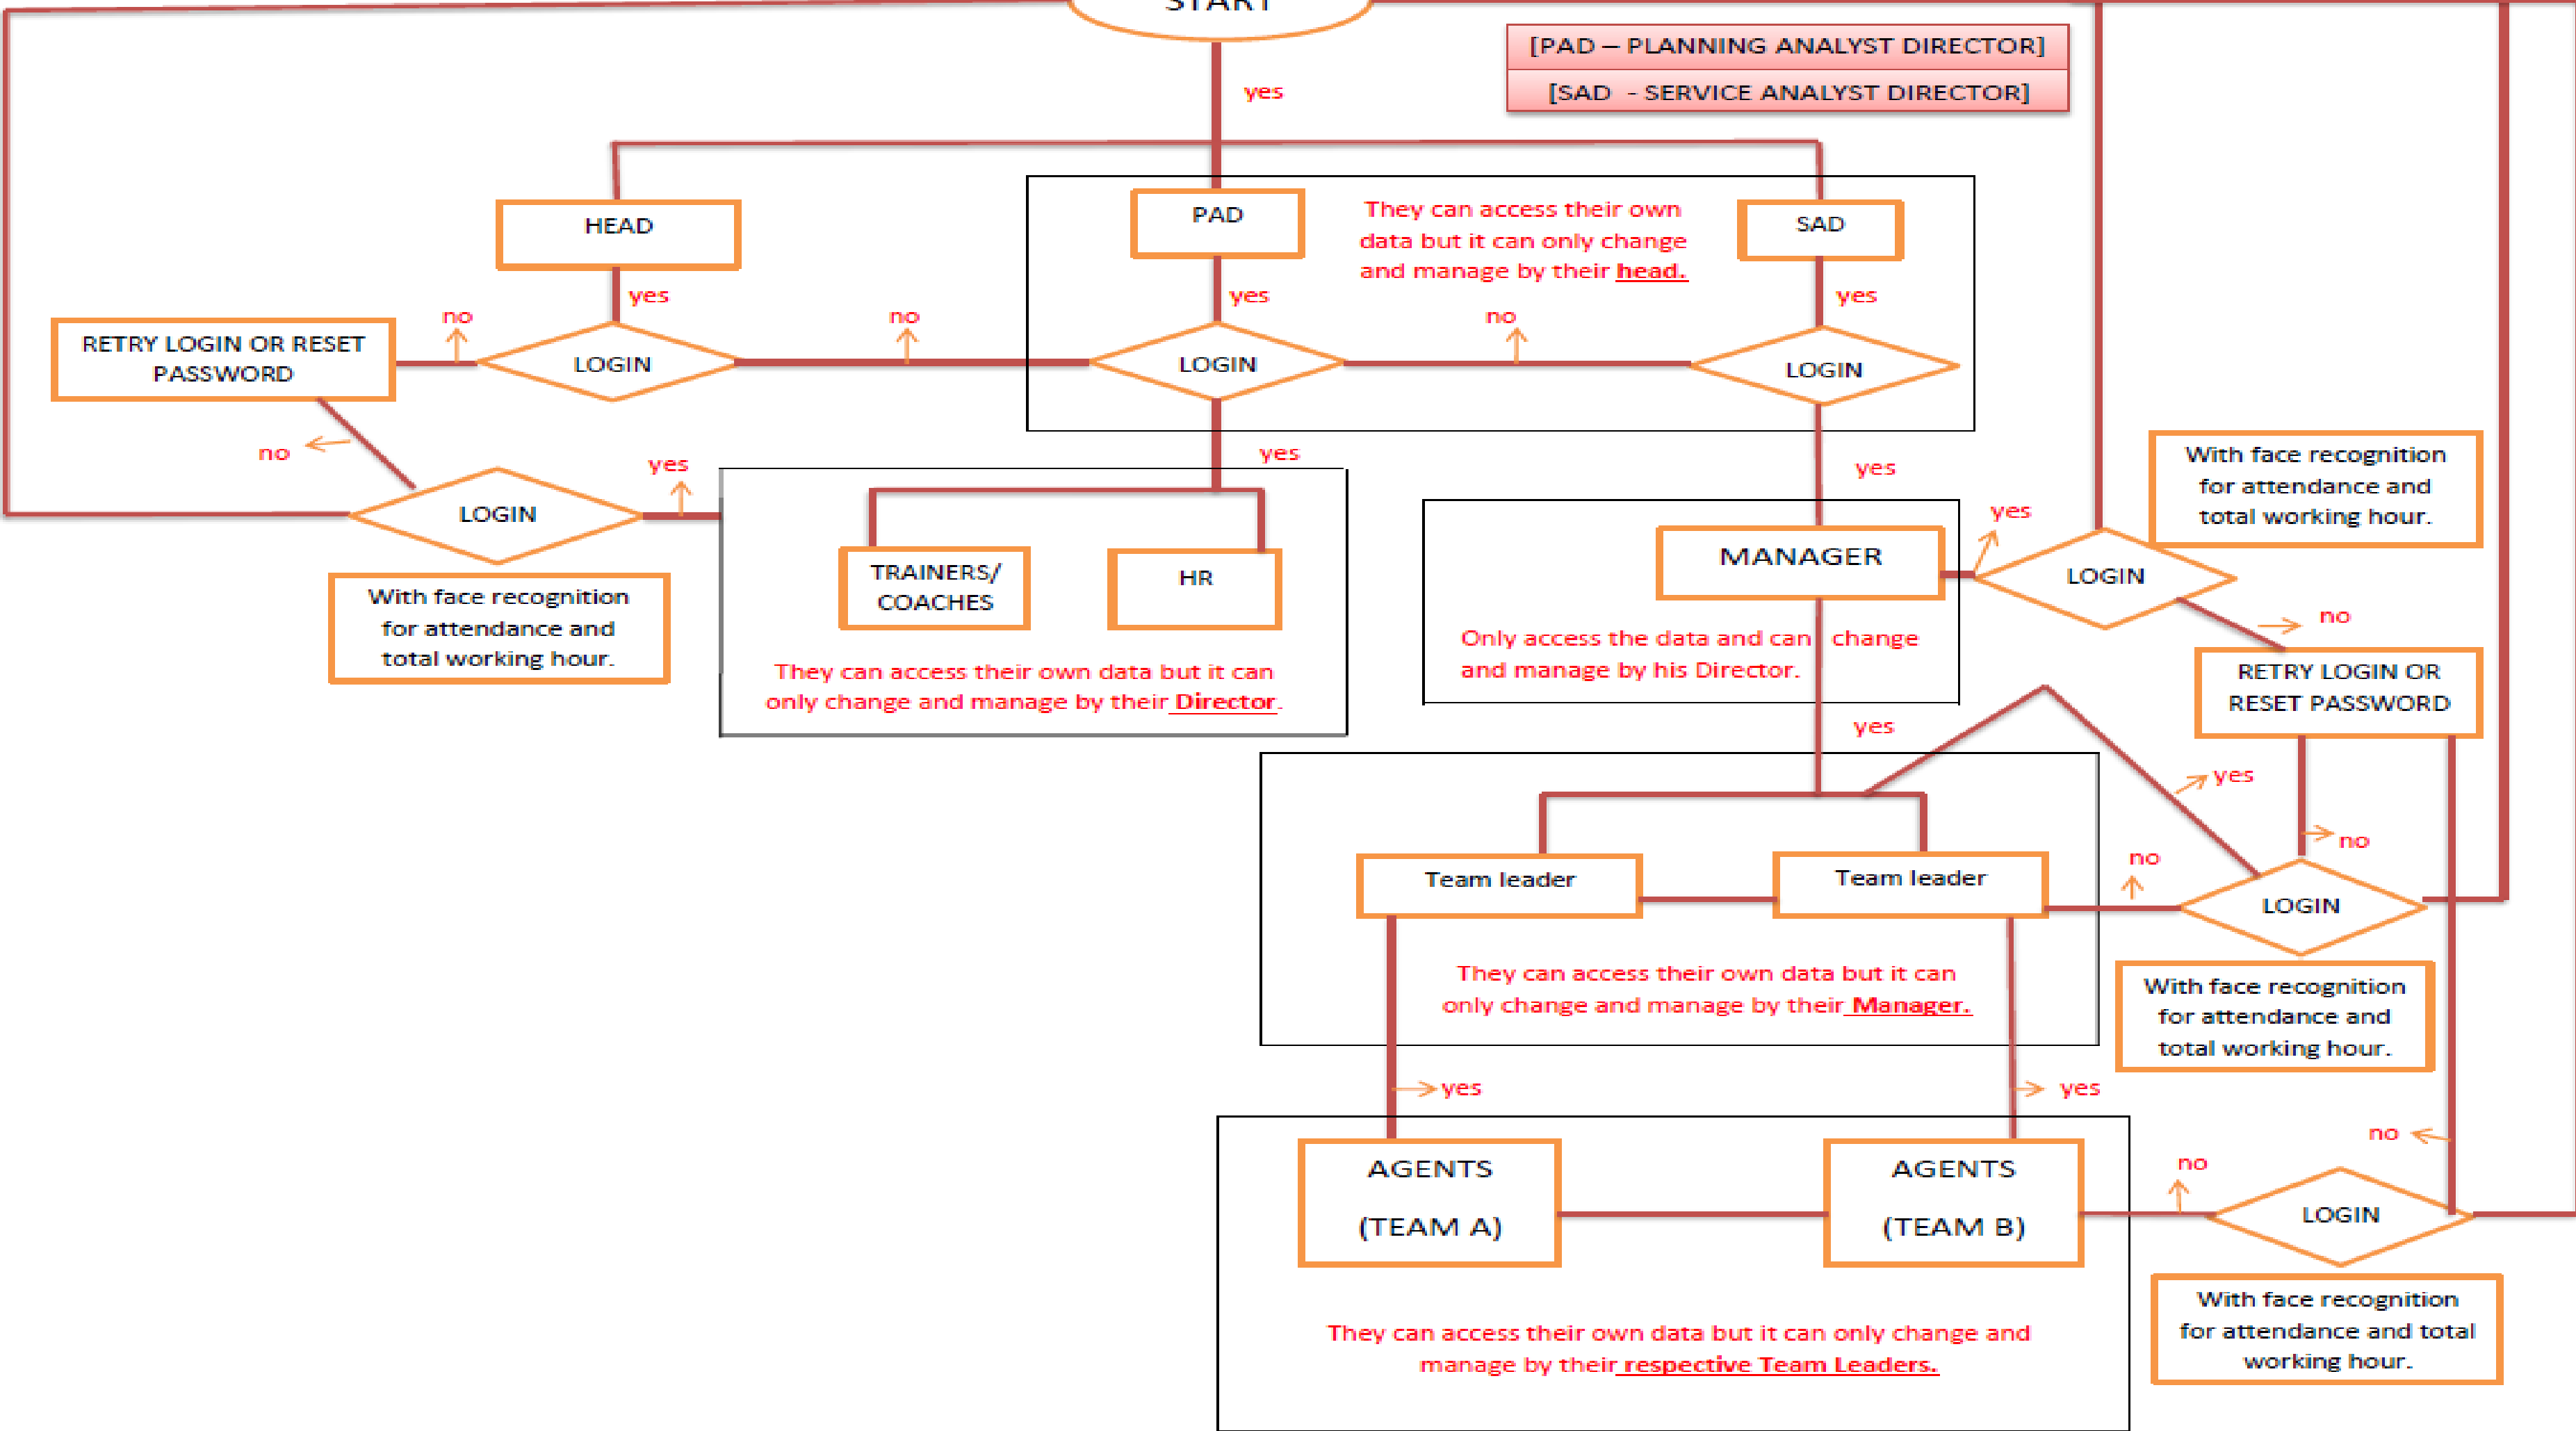

ALSO WE ARE INCLUDING SOME FEATURES LIKE - When the agents login with their respective login credentials they will be asked for the face recognition for attendance and it will also calculate their working time as if there will be no activity for 10 minutes then it will automatically get log out, then again the agent will have to login for their further work so, by this their working time will automatically get recorded which also helps in calculating their salary.

HIERARCHY CHART OF MEMBERS OF AN ORGANIZATION

WHICH WE ARE INCLUDING IN OUR PROJECT -

FLOW CHART

SAMPLE OF OUR PROJECT WITH ITS FEATURES AND OUTPUT AT SMALL SCALE BY TAKING SENIOR AND JUNIOR LEVEL OF EMPLOYEES.

FEATURES

For SENIORS

- To View List of Employees
- To View Employee Details
- To Modify Existing Employee Details.
- To Add New Employee Details.
- To Remove an Employee Details.

For JUNIORS

- Access his/her attendance.
- Total Working hour.
- Salary.
- Perks.
- Apply for Leave.

SAMPLE OUTPUT

Here we have to choose option for to login as owner or employee. And firstly we are choosing for OWNER.

```
F:\dsd.exe
```

```
>>>>>>>>>>>>>>>>>>>>EMPLOYEE MANAGEMENT SYSTEM<<<<<<<<<<<<<<<<<<<<<<<
```

```
ENTER "1" IF YOU ARE THE SENIOR
```

```
_____
```

```
ENTER "2" IF YOU ARE A JUNIOR
```

```
_____
```

```
>> 1
```

```
_____
```

```
ENTER YOUR ID: 234578
```

```
ENTER YOUR PASSWORD: *****
```

```
LOADING
```

```
